**Note:** It requires two people to assemble an IDEA Screen.

Choose a clean, flat work area that is larger than the frame for assembly.

## Tools Required For Assembly

Phillips Screwdriver

## Assembly Instructions

## Wall Mounting

1. The screen is shipped with one 44" wall bracket. This bracket must be mounted to a flat surface into at least two wall studs.
2. Secure bracket to wall studs at the desired height. Make sure the bracket is level. Drill holes and attach mounting bracket to the wall. You will need at least 1" clearance above the drilled holes to hang the screen.
3. This step requires two people. Hang the screen on the wall bracket (Figure 2). There is a lip on the back of the frame that wedges itself into the wall bracket once fully installed.
4. Attach bottom of screen to wall with two screws. The bottom mounting holes are located under the tray (Figure 2).

## Cleaning

The supplied cleaning cloth can be used to clean marks on the screen surface made by everyday dry erase marker usage. To clean persistent marks from dry erase markers, use the supplied Da-Lite spray cleaner and cleaning cloth. To clean permanent markers and other unintentional marks on the surface, use the supplied Da-Lite spray cleaner and cleaning cloth or a melamine foam cleaning pad.
